

“Before, we would have to dig through all the reports ourselves; now we’re being alerted in real time. It’s going to make us a lot more efficient in our response because they’re monitoring 24/7. We’re a small shop, running pretty close to the edge, and it’s relieved some of the worry.”

Wade Jones
Senior Vice President
Chief Information officer
CNB Texas

DEFENSESTORM +

PROFILE

- More than \$1B in assets
- 14 branches in ten cities

CHALLENGE

CNB Texas was preparing to invest in new digital tools like online banking and bill pay, but the community bank felt vulnerable due to its lack of cybersecurity expertise. They enlisted the expertise of DefenseStorm to improve threat detection, monitoring, and reporting capabilities.

SOLUTION

THREAT SURVEILLANCE plus TRAC Security Operations Team

GOVERNANCE PROGRAM

IMPACT

- **24/7/365 monitoring** with real-time alerts and threat detection
- Reduced false positives to improve resource efficiency
- Improved response time
- Valuable insights from **automated reports**
- **Document compliance** with advanced search and reporting features
