

“Shortly after we went live, I got a call from a TRAC security engineer one night alerting me to a potential issue. It took me about 30 seconds to figure it out. Our internal vulnerability scanning had started, raised red flags, and we were alerted. That convinced me I made the right decision.”

Derrick Montplaisir
Vice President
IT Director
First Bank Elk River

DEFENSESTORM +

PROFILE

- Approximately 50 employees
- More than \$370M in assets
- Serves close to 5000 customers across four offices

CHALLENGE

First Bank Elk River’s previous cybersecurity provider failed to deliver reliable and streamlined reporting capabilities.

SOLUTION

THREAT SURVEILLANCE plus TRAC Security Operations Team

GOVERNANCE PROGRAM

EDR

IMPACT

- Easy completion and maintenance of the FFIEC Cybersecurity Assessment Tool (CAT), Gramm-Leach-Bliley Act (GLBA), and National Institute of Standards and Technology (NIST).
- **Agents on every endpoint** reporting on logs
- A system that **captures all logs** from switches and firewalls
- **Powerful escalation chart** to support reporting
