

“With DefenseStorm’s Threat Surveillance product and CTS Ops service, you don’t have to jump between 15 different spots just to try and piece something together. The ability to centralize data and provide detailed analysis was a game-changer.”

“The team at DefenseStorm, who handle much of the detailed analysis, has been remarkable. What we noticed with DefenseStorm almost immediately was the quality of the information provided. DefenseStorm’s analysis is just miles ahead of anything we’ve ever experienced before.”
